

Mini-session:

**“The rise of Extreme Right politics
and what Christians can do in response”**

**MEP Terry Wynn
at the ESF2008 in Brussels**

MEP Terry Wynn, UK, who is a very well-known, highly respected and experienced member of the European Parliament for many years, participated in the ESF for several days and contributed to the ESF in different ways. Among other things, also by sharing his experiences with the participants of this mini-session. He did this on the background of his book “Where are the Prophets?” (Leicester: Matador, 2006). At the same time, Terry Wynn, as a very enthusiastic European, encouraged the young participants to become politically active, take part in and take responsibility for Europe’s future.
